

## Environmental Policy:

At Pure Catering & Services Ltd, we understand the importance of protecting the environment for the well-being of current and future generations. We are committed to adhering to the highest environmental standards and continuously strive to reduce our impact on the environment.

Our Environmental Policy is guided by the principles of the Environmental Protection Act 1990 and the Waste (England and Wales) (Amendment) Regulations 2012. Our Managing Director for Health, Safety and Environmental issues, Avi Anand, is committed to taking an environmentally and socially responsible approach to all our operations.

To achieve this, we have set out several key objectives that we will focus on:

- Minimizing disturbance to the local and global environment, and to the local communities and wildlife.
- Adhering to the waste management hierarchy as outlined in the Waste (England and Wales) (Amendment) Regulations 2012, with a focus on prevention, re-use, recycling, recovery, and disposal.
- Minimizing our use of energy and raw materials and adhering to the principles of sustainability.
- Incorporating environmental considerations in the design of our processes, products, and equipment maintenance.
- Providing information on the use and final disposal of our products to our customers.
- Ensuring that all our employees and suppliers are adequately informed about our environmental policy and expect them to take their environmental responsibilities seriously.
- Minimizing the use of product-related materials and services such as packaging or transport to reduce our environmental impact.
- We understand that our employees play a crucial role in achieving our environmental goals. Therefore, we expect our employees to take reasonable care of the environment while at work and to fully cooperate with the company and anyone else concerned to ensure that legal and moral obligations are met.

We are committed to continuously reviewing and improving our environmental policy to ensure that we are doing our part to protect the environment. Join us in our effort to make a positive impact on the planet.
